GERONIMO!

This week, *Baby Bear's porridge* is cool!

Actually, it's just right.

Be the first to find out what's happening in the Doctor's universe!

THE DOCTOR'S CHOICE!

Roar!

Where should the TARDIS land next? Who better to ask than the Doctor himself. "I'd like to see **dinosaurs**," says **Matt Smith**.

"That would be cool – but it would

be really, really expensive!" So where else? "I'd like to go **under the sea**," he says. "That would be fun!" And scary!

The TARDIS never goes where I want her to.

WHAT'S MAKING THE WEEPING ANGELS WEEP THIS WEEK?

January diet disaster

THINGS THEY'D NEVER SAY
THE JUDOON

"Ro Ro Ro your boat!"

"There's nooo business like shooow business... La la la!"

"Ho! Ho! Ho! Merry Christmas!"

Real sonics...

Boffins at Bristol University are studying the **real science** behind the Doctor's sonic screwdriver! Professor Bruce Drinkwater tells us his team's research may help doctors by using **sound waves** to separate diseased cells from healthy ones.

Why is **sonic power** so useful? "Cells are delicate," says the professor. "So you want a very gentle force to push them into position." But he says it will still be a **few years** before real sonic screwdrivers are available in shops!

Professor Drinkwater has teamed up with **The Big Bang** to help young people get involved in science. See www.thebigbangfair.co.uk for details of the events happening in March.

... But you have to wait!

WIN A cool SJA audiobook!

AMY, THE CAPTAIN AND RORY

HOW TO CATCH A S

The Doctor tells us that nothing could be simpler than catching a shark. Well not if you follow his top fishing tips...

This hat is cool.

TOP HAT

First things first: have you got the right fishing hat? The Doctor insists a good hat is essential. It shows the shark you know what you're doing. Even if you, um, don't.

TUNE-A-FISH

La la la!

Zzzzz!

A pulse from a sonic will stun a shark. But if your sonic's been stolen, you can calm a shark down by singing it a nice song. Where's Matt Cardle when we need him?

BEST BAIT

A shark has a terrific sense of smell, so tempt it over to you with a nice bit of food, such as...

FISH FINGERS

A BAG OF SWEETS

A NICE PIE

A SONIC SCREWDRIVER

TASTY!

Okay, I'm ready... Now, *where's* that shark?

HARK!

KIT LIST

Your fishing rod must be **STRONG** as sharks eat a lot and are heavy - even the flying ones! Why not make a rod out of a **SATURNYNE WEATHER VANE?**

Or you could use **A BIG NET**. Again, your net needs to be very strong. Make sure the gaps in the net aren't too big or the shark will escape!

If those don't work, you can always use your **BARE HANDS**. The Doctor says that's good because it means you get two goes! Thank you, Doctor. Not.

MORE TRICKY CATCHES

Once you've mastered sharks you can catch anything!

DALEK

The Doctor caught this beauty on a trip to the far side of the Moon. Watch out for the blaster, which can sting a bit.

MASTER

Bah!

This one's all about the bait. You can lure the Master with chocolate cake, roast dinner and jelly - all at the same time.

TIME LORD!

THE SEVENTH DOCTOR!

The Doctor caught this one on the ice planet Svartos. Oh, wait a moment. That's him!

Meet the man

magic of *Doctor
Who* a reality!

Toby Haynes

DIRECTOR

BACKSTAGE

secrets

Toby watches a
close up shot of Michael
Gambon, who plays old
master Kazran Sardick.

WHAT'S MY JOB?

"I'm responsible for everything you see and hear on screen. If I want it to be scarier, I can make it scarier! It's the same with comedy. You are called a director because you're there to give it direction."

HOW I STARTED

"As soon as I knew that films were made by people, I wanted to be one of them! That was around the age of 11. I went to art school, then to the National Film and Television School. I worked on *Hollyoaks*, *M1 High* and *Being Human* before I got *Doctor Who*."

INSPIRATION

"Our references for the look of the Christmas special were the *Harry Potter* films and the *Star Trek* movie."

FAVE STUNT

"The Cyber-head fight is the thing I'm most proud of from my whole time on *Doctor Who*. It needed

really good work from every department. I puppeted the head! I put a green sock on my arm and they took that out later with CGI."

BEST BITS

"The best thing about my job is that I get to picture something, then through hard work make that imaginary thing a reality. I want to really creep people out. I want to send everyone behind their sofas, that's what it's all about."

"I would love to bring back the Zygons from the older *Doctor Who* episodes!"

A DAY IN MY LIFE

6:30am

Wake up and a car comes to take me to my door!

7:30am

Arrive on set and get asked lots of questions about the day's filming.

8:00am

Play music on set to get everyone in the mood and start shooting.

1:00pm

Break for a lovely lunch – one of my favourite things about filming!

1:30pm

I go back on set early so I can think about what we have to do that afternoon.

2:00pm

Start filming again. Generally we shoot five or six pages of script per day.

7:00pm

Finish filming and go home exhausted!

THIS WEEK'S PRIZES!

We've got a DVD player, a PSP and Who DVDs up for grabs - wow!

THE DOCTOR

DOCTOR WHO
ADVENTURES

THE MASTER'S MINIONS!

The Master often uses other races to help carry out his sinister schemes – but not all of them like taking orders!

AXONS

The shape-shifting **Axons** captured the Master when they wanted to **steal the secrets** of time travel.

To save himself, the Master promised to help them **drain Earth of its energy** in exchange for his freedom.

SEA DEVILS

The Master revived an underwater **Sea Devil** base, hoping he could lead them in a war against humans. But the sneaky

MASTER CLONES

Last time we saw the Master, he used an **Immortality Gate** to transform every single human being into an **Immortal Being**. With the whole world at his disposal, he thought he had created **the ultimate army**.

CHEETAH PEOPLE

When the Master was **trapped** on the planet of the Cheetah People, he used the warrior cats to try and escape to Earth. But the planet had already **got inside his head** and started turning him into **an animal**!

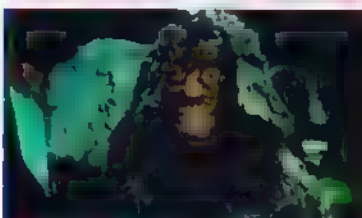

THE MANY MASTERS!

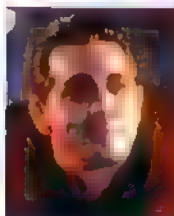

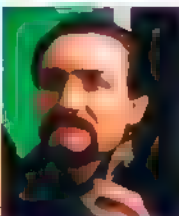

The Master is a Time Lord, just like the Doctor - which means he can also regenerate.

The first Master we met had a scary beard and looked very nasty.

Then he regenerated too many times and his face fell off. Eek!

His next two bodies were stolen from unlucky people he met.

He disguised himself as a human before changing to his most recent face.

THE TOCLAFANE

These childlike globes obeyed the Master without question and were used to **conquer Earth**. They were the **future descendants** of the human race, and the Master used them to create a **time paradox** because he knew it would break the Doctor's hearts.

THE RANI

The Master came to this rogue **Time Lady** looking for help to destroy the Doctor once and for all. Her **sharp wits and technology** saved his life several times before the Doctor trapped them both inside the Rani's TARDIS with a load of **baby dinosaurs**!

Make a Cryo-Cylinder

YOU WILL NEED:
 A4 sheet of white card
 Glue Scissors

Have fun creating Abigail's freezer box

What to do:

- 1 Cut out the right-hand page and stick it on to a sheet of white card.
- 2 When it's dry, cut out all four pieces. Take care when cutting out the window hole.
- 3 Fold the main box shape along the dotted lines, folding away from yourself
- 4 Stick the flaps A, B, C and D to the inside edges pointed to in the picture below, always keeping the printed side facing outwards. Allow the roof to curve naturally when sticking B to the main box.

PUT ABIGAIL IN HERE

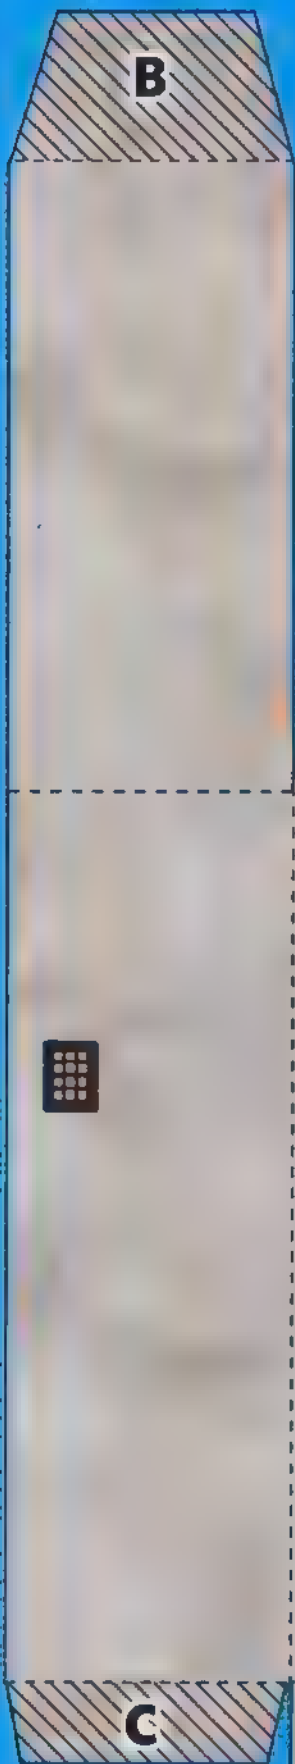

- 5 Stick the two Abigail pictures back to back so on one side she is frozen and the other defrosted
- 6 Cut the slits in Abigail's skirt and stand, then fit them together so that she stands up.

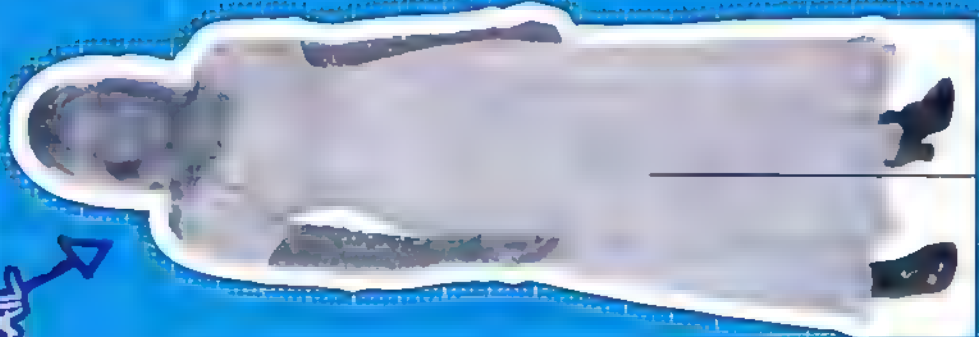

TIP!
 Why not finish off your model by sticking a piece of cellophane to the inside of the window?

WHO KNOWS!

Q At the end of *The Time of Angels*, why were there fireworks when the Doctor shot a gun into the air?

Hugh Child

A When they arrived at the crashed ship the Byzantium, the Doctor and his friends launched a gravity globe into the air so there was plenty of light to explore by. But the Weeping Angels were closing in, so the Doctor shot the gravity globe and it exploded like a huge firework! At the same time, the team jumped, got caught in the gravity of the exploding globe and landed upside down on the hull of the ship. Brilliant!
